Thanks Karen. I sent Jeff an email last night asking him to help me draft a censure. I believe the Mayor's poor judgement warrent a formal action form the Council. I would like to bring this to the table at a special meeting for consideration.

Give me a call if you have questions.

Thanks,  
Scott

Where is the public copy "Censure Resolution" as drafted or the example being presented as a template ? This would be on that the council **most likely** has in their possessions and the packet they will be receiving available on the web and the clerks office ? What time will it be available ?

Richard,

Thank you for checking on that. I also checked with our City finance director and several others in the financial field and they said they didn't see any reason why this would affect our bond rating. They said the up and down pattern of us not meeting our obligations has had an effect, however.

**Thank you for your quick reply.**

**Good news! I just talked with an Edward Jones broker who specializes in municipal bonds. He said that a censure of a government official "would not effect the rating one bit". Also he said "we look at the cities revenue growth and community stability".**

**Alderman Joni Painter,**

**One of life's earliest and basic principle is that an individual must be responsible or his or her own actions without merely excusing it with an apology. Was the mayor's tirade to Diane Benjamin an open window to his true character?**

**We expect and deserve the highest standard, both private and public, from our highest elected public official. The mayor's apology does not pardon or excuse his behavior. He must be held responsible for his actions.**

**I realize that you may feel that you owe an allegiance to the mayor but your bigger allegiance and responsibility are to your constituents. This cannot be sweep under the rug and ignored. At the minimum, a censure is necessary. Please let me know your position on this matter.**

Diana, It would be good if you contacted the Pantagraph then & stress to the powers that be that it was not a censure & should not be misreported as such. That is only going to do more damage. Thanks for your follow up, it is greatly appreciated. Carol

Hello Teri,

The document we voted to approve tonight was a resolution expressing disapproval of the Mayor's recent comments and setting forth the high value City Council places on civil public discourse. It stated that his behavior was not tolerable and had violated the values of the council, and demonstrated a lack of judgment and professionalism.

The word censure was nowhere in the resolution. However, a formal censure is very close to the same thing as this resolution. It's all very confusing, I know.

I really wish you would attend more City Council meetings. We usually see the same five or six faces at every meeting, and three or four of them always make a public comment. They were included in the mix this evening. It would be nice to see some new faces and hear some different points of view.

I'm not sure I really answered your question, as I'm a bit foggy on it, too. But I definitely do think we got our point across to Mayor Renner. Aside from this meeting tonight, each and every one of us on the Council individually raked him over the coals, as it were.

Thanks for your comments. And yes, it was a crazy night...crazier than usual.

Have a good rest of the weekend,

Joni Painter  
Ward 5 Alderman

As my husband, brother-in-law, and I walked away from the meeting this evening, we questioned--"so was our Mayor censured or not?". Certainly an odd meeting and except for the fact that we are interested and concerned citizens it was as close to a box of Cracker Jacks without the prize as you could get on a Friday night-- a little corn along with a few nuts.
