[REDACTED] Amber's problems encompass her choice in men and she finally recognizes that. This ordeal has definitely changed her and would be a tragedy for all of us if she goes to prison, especially her children. Please save them. She has our complete support including all 4 of her siblings. I promise you she will be an asset to the community and us. My wife and I cry and pray together everyday for Amber and her wonderful children that she has always been a good mother to. She is good people. Please read what her counselors have written about her. I am begging for your mercy and please believe all I am telling you is truth. Please, helping her will help all of us.
