

I'm certain you would agree that successful local leaders are those who advocate for the community, promoting constructive dialogue and demonstrating respectful behavior rather than fostering negativity and propagandizing. Further, I hope you would also agree that in order to achieve great success as a community, your efforts to demean and vilify community partners are counterproductive.

With expectations of respectful and productive discourse from Normal Township,

A handwritten signature in blue ink that reads "Chris Koos". The signature is written in a cursive, flowing style.
